

# HEMANT JHA

Senior Frontend Engineer

8700858191 | Delhi, India | hemantjhaa97@gmail.com | linkedin.com/in/hemant-jha

## Professional Summary

Senior Frontend Engineer with 6 years of experience building scalable web applications using **React.js**, **Next.js**, and TypeScript. Experienced in modular architecture, **performance optimization**, API integration, and developing customer-facing and admin platforms. Skilled in delivering high-quality frontend solutions for enterprise applications.

## Technical Skills

**Frontend:** React, Next.js, TypeScript, JavaScript, HTML5, CSS3

**State Management:** Redux Toolkit, Redux-Saga, React Query

**Architecture & UI:** Frontend Architecture, Performance Optimization, MUI, Tailwind CSS, Responsive Design

**Testing & Tools:** REST APIs, JWT, Docker, AWS, Git, CI/CD, Jest, React Testing Library, Cursor AI, Claude

## Professional Experience

### Senior Frontend Engineer

Sep 2024 – Present

Appinventiv

Noida, India

- Optimized **React** and **Next.js (SSR)** applications for enhanced performance, **scalability** and user experience.
- Implemented scalable state management using **Redux Toolkit** and **Redux-Saga**, ensuring predictable and maintainable application state.
- Optimized API interactions through **caching strategies** and efficient data flow, improving application responsiveness.
- Delivered production-ready features by collaborating with cross-functional teams in an Agile environment.
- Led frontend modules from **technical design** and development to deployment, ensuring **code quality** and **maintainability**.

### Senior Frontend Developer

Nov 2022 – Aug 2024

UV Technologies (CIPL)

Noida, India

- Developed scalable government platforms using **Next.js (SSR)**, enhancing performance and SEO.
- Integrated headless CMS solutions to enable dynamic content management and scalable content workflows.
- Built reusable **UI components**, improving consistency and accelerating feature development.
- Optimized **state management** and application data flow, ensuring **maintainability** and responsiveness.

### Software Engineer

Aug 2020 – Oct 2022

Blue9 Technologies

Gurugram, India

- Developed reusable **React** components for scalable and maintainable frontend applications.
- Implemented **Redux** state management to streamline application data flow.
- Optimized frontend performance to improve application responsiveness and initial load time.
- Collaborated with cross-functional teams to deliver user-focused features in an Agile environment.

## Projects

### CWC (Catholic Women Cycle) — Customer App & Admin Panel

- Developed **scalable** customer and admin platforms for pregnancy and menstrual cycle management.
- Built onboarding, profile management, secure document uploads, and **Razorpay** payment integration.
- Implemented **RBAC**, permissions, and dynamic data tables with **CRUD** operations.

### Sonny's Car Wash Platform — Customer App & Admin Panel

- Developed booking, scheduling, white-label, and admin platform features using **Next.js**.
- Built an offline-first **PWA** using **IndexedDB** and caching strategies.

### PVR-INOX — Customer App & Admin Platform

- Developed movie ticket booking, food ordering, gift card, and subscription (**Passport**) features.
- Built reusable components and optimized application performance for high-traffic production workflows.

## Education

APJ Abdul Kalam Technical University

B.Tech in Electronics & Communication Engineering

2015 – 2019

Ghaziabad, UP
